

# Hydrothermal Plume

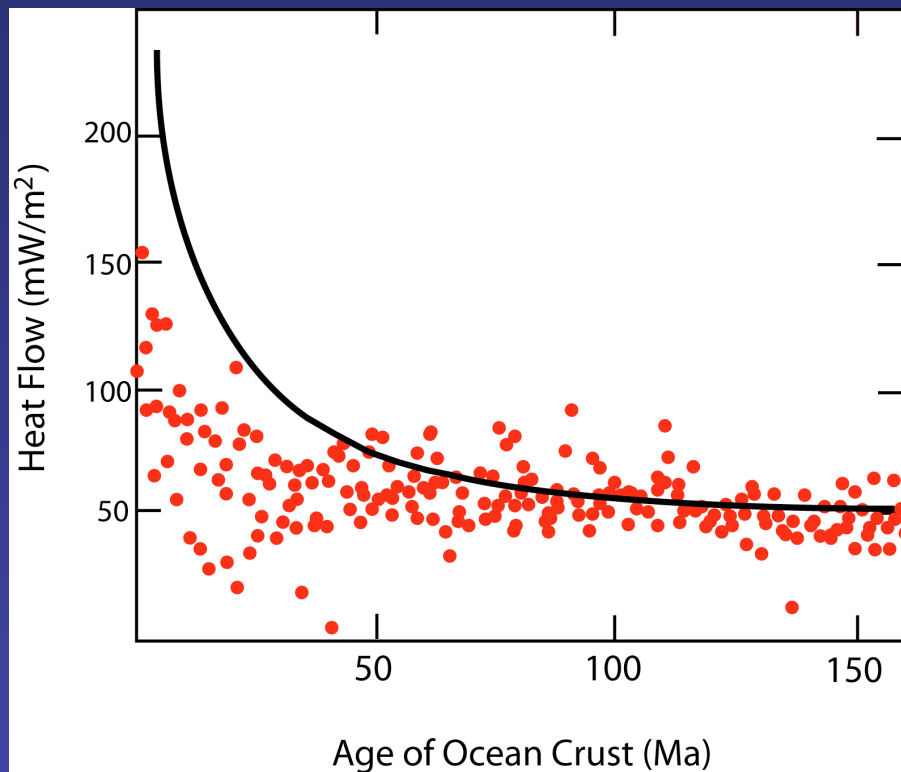

**Figure 3 Cruise track showing  $^3\text{He}$  plume at 2500m**

Chris German (WHOI)

# Why is hydrothermal activity important?

Heat Flux from the Earth's Interior = 43 TW  
Seafloor Hydrothermal Heat Flux = 11 TW

The entire volume of the oceans is cycled through hi-T vents every ca. 10Ma

(Stein et al., *Geophys Monogr.* 1995)

# Why is hydrothermal activity important?

	Enriched with respect to seawater on a Cl- normalized basis
	Depleted with respect to seawater on a Cl- normalized basis
	Enriched and depleted

(German & Von Damm, *Treatise of Geochem.*, 2004)

# Physics of hydrothermal plumes

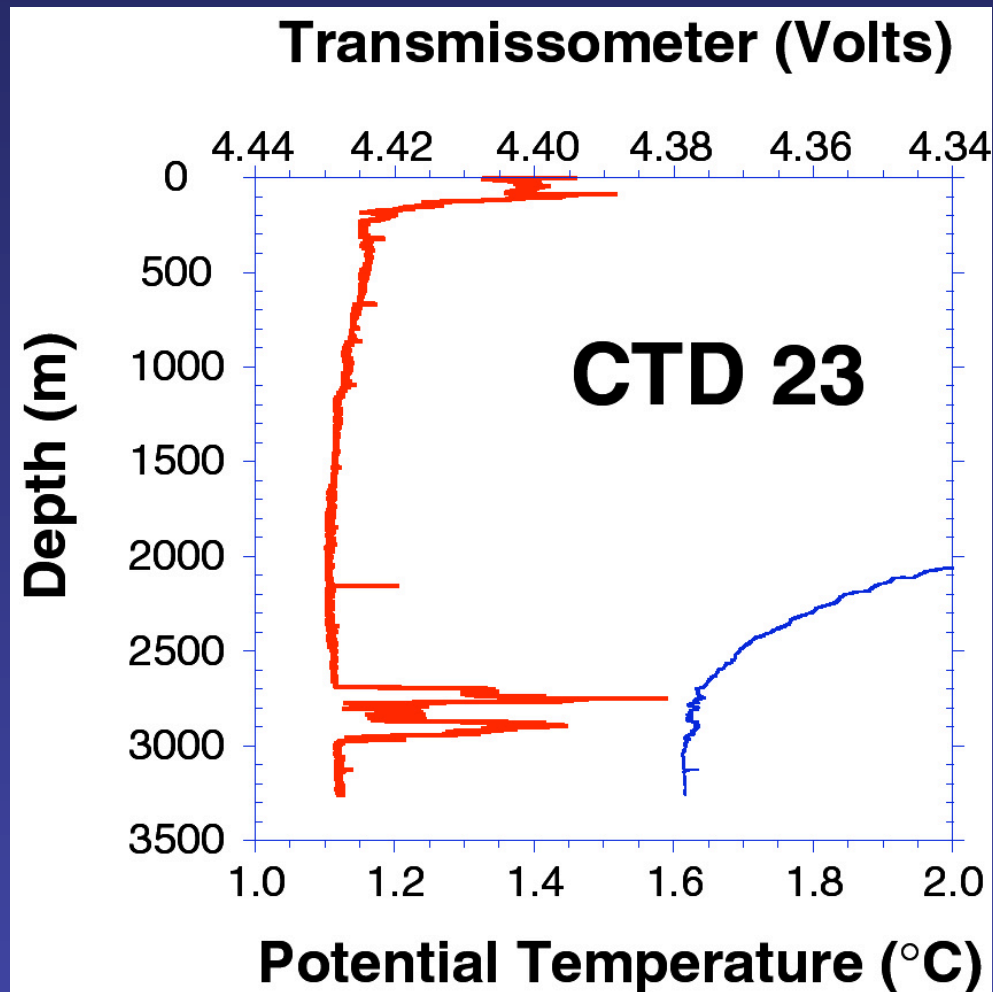

$$Z_{\max} = 3.76 F_0^{1/4} N^{-3/4}$$

$$N^2 = -(g/\rho_0) \cdot d\rho/dz$$

$$\tau = \pi N^{-1}$$

(Helfrich & Speer, *Geophys Monogr.*, 1995)

# Physics of hydrothermal plumes

(data from Sands et al., *EPSL.*, in review)

# Time-scales for Hydrothermal Circulation

## Global hydrothermal fluxes: heat and volume

	Heat Flux (TW)	Water Flux ( $10^{16}$ g.yr <sup>-1</sup> )
Axial Flow (0-1 Ma Crust)		
a) if 100% as Hi-T (350°C) fluids	2.8	5.6
b) if 50% @ 350°C; 50% @ 5°C	2.8	240
Off-Axis Flow (1-65 Ma Crust)	7.0	~2500
Riverine Discharge (approx)		~4000
Hydrothermal plumes (50% of 0-1 Ma)		~28,000

(revised from Elderfield & Schultz, *Ann.Rev.Earth.Planet.Sci.*, 1996)

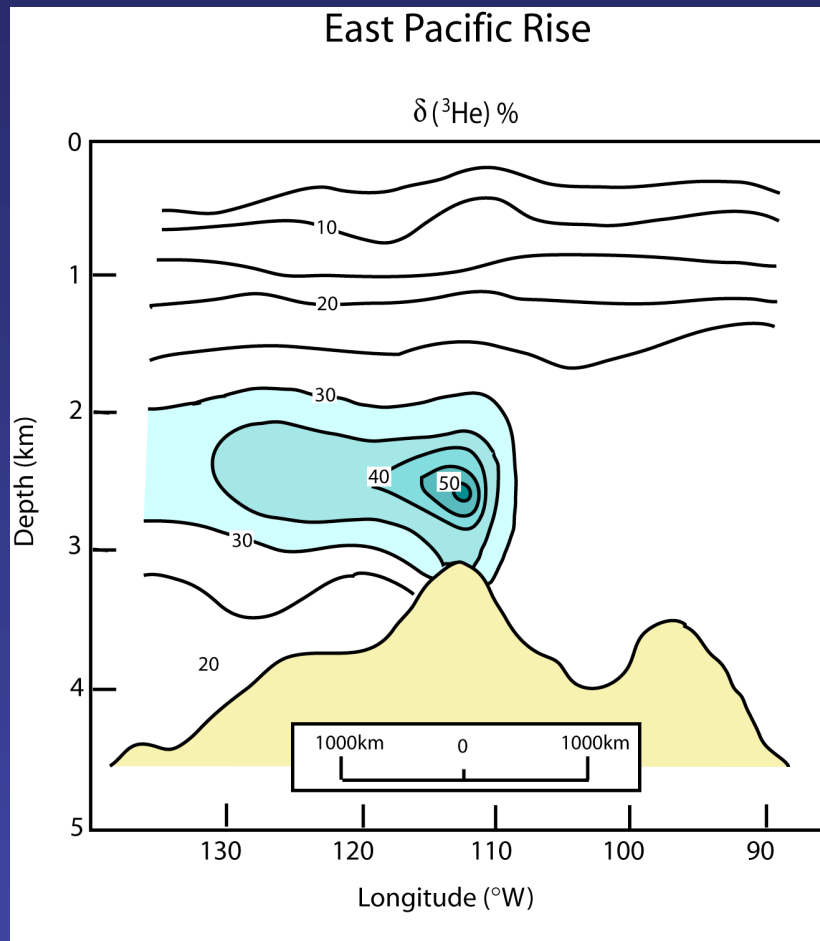

# Time-scales for Hydrothermal Circulation

Entire volume of oceans cycled through plumes every ~2kyr?

(German & Von Damm, *Treatise of Geochem.*, 2004)

# Hydrothermal Plume Geochemistry

- Noble Gases
- Reduced gases
- Fe & Mn
- Other metals
- Microbes
- Larvae

(after Lupton & Craig, *Science*, 1981)

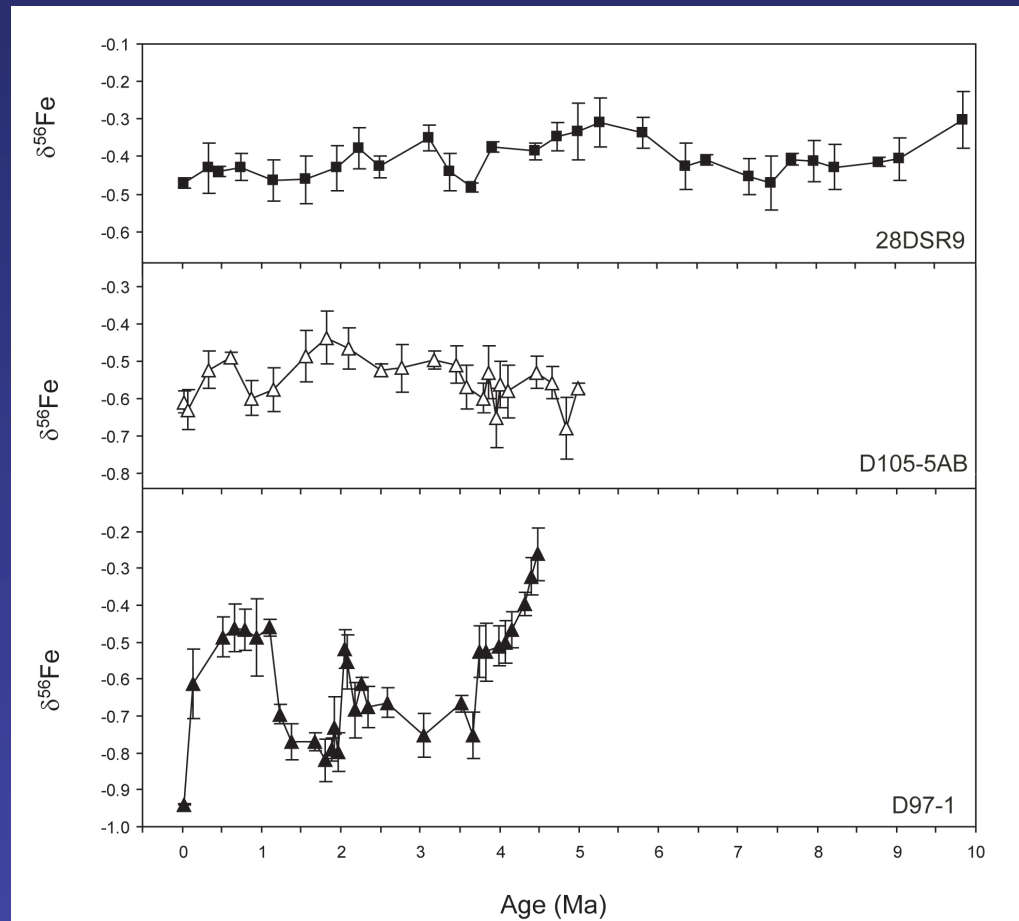

# Plume Geochemistry - Reactive Tracers

(Kadko et al., *EPSL*, 1990)

# How much deep-ocean Fe is hydrothermal?

(Chu et al., *EPSL*, 2006)

# How much deep-ocean Fe is hydrothermal?

11 - 22% of the dissolved Fe flux to the deep-ocean

Open ocean – At steady state:

0.7 nM Fe

Residence time 70 - 140 y

Total Fe input required to maintain deep-ocean Fe :

$1.4 \times 10^9 \text{ mol y}^{-1} - 2.7 \times 10^9 \text{ mol y}^{-1}$

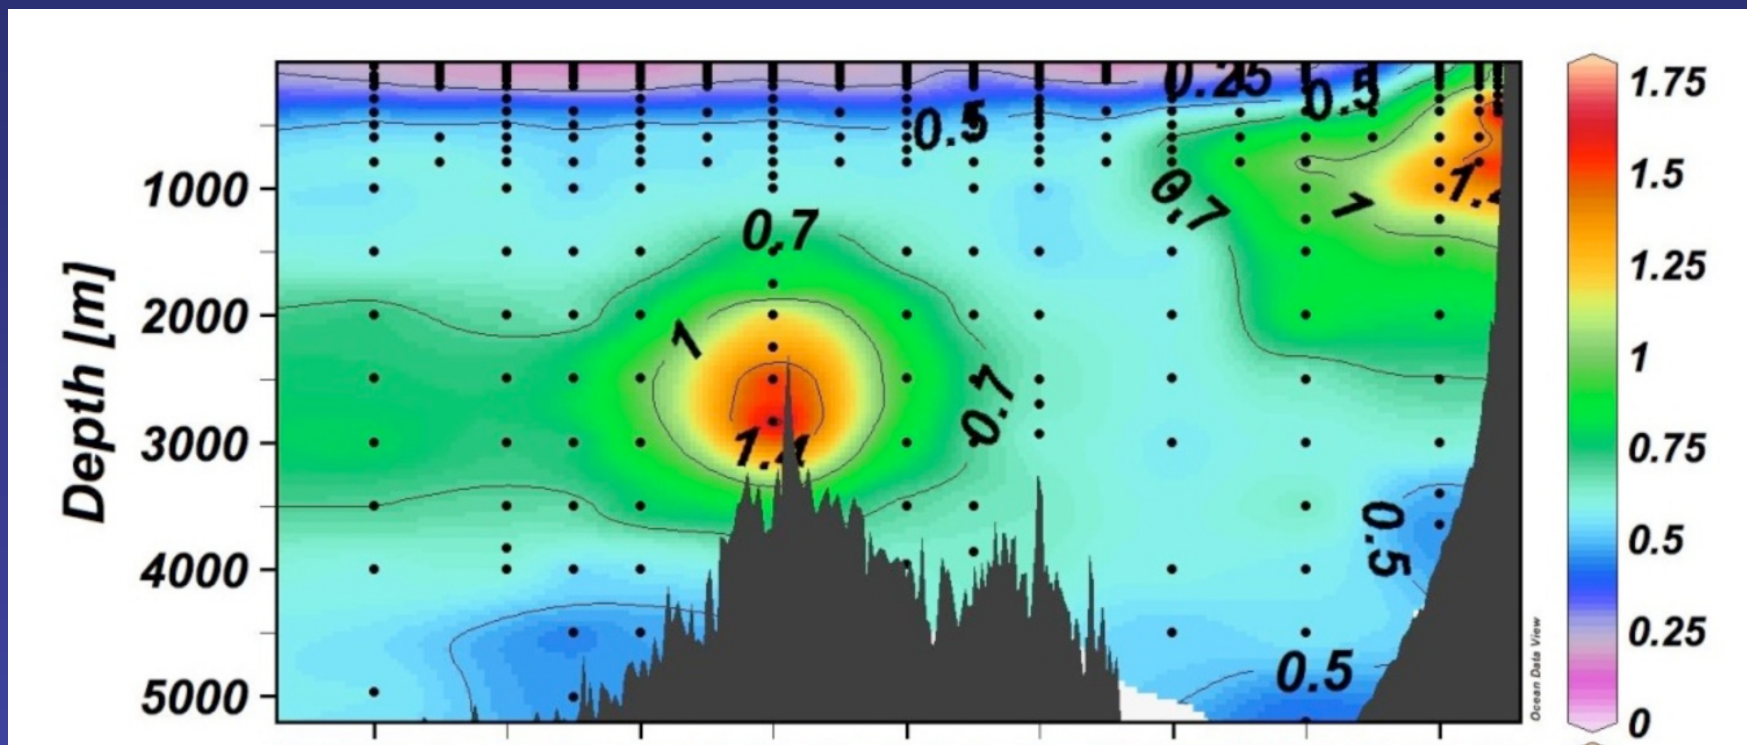

(Bennett et al., *EPSL*, 2008)

# How much deep-ocean Fe is hydrothermal?

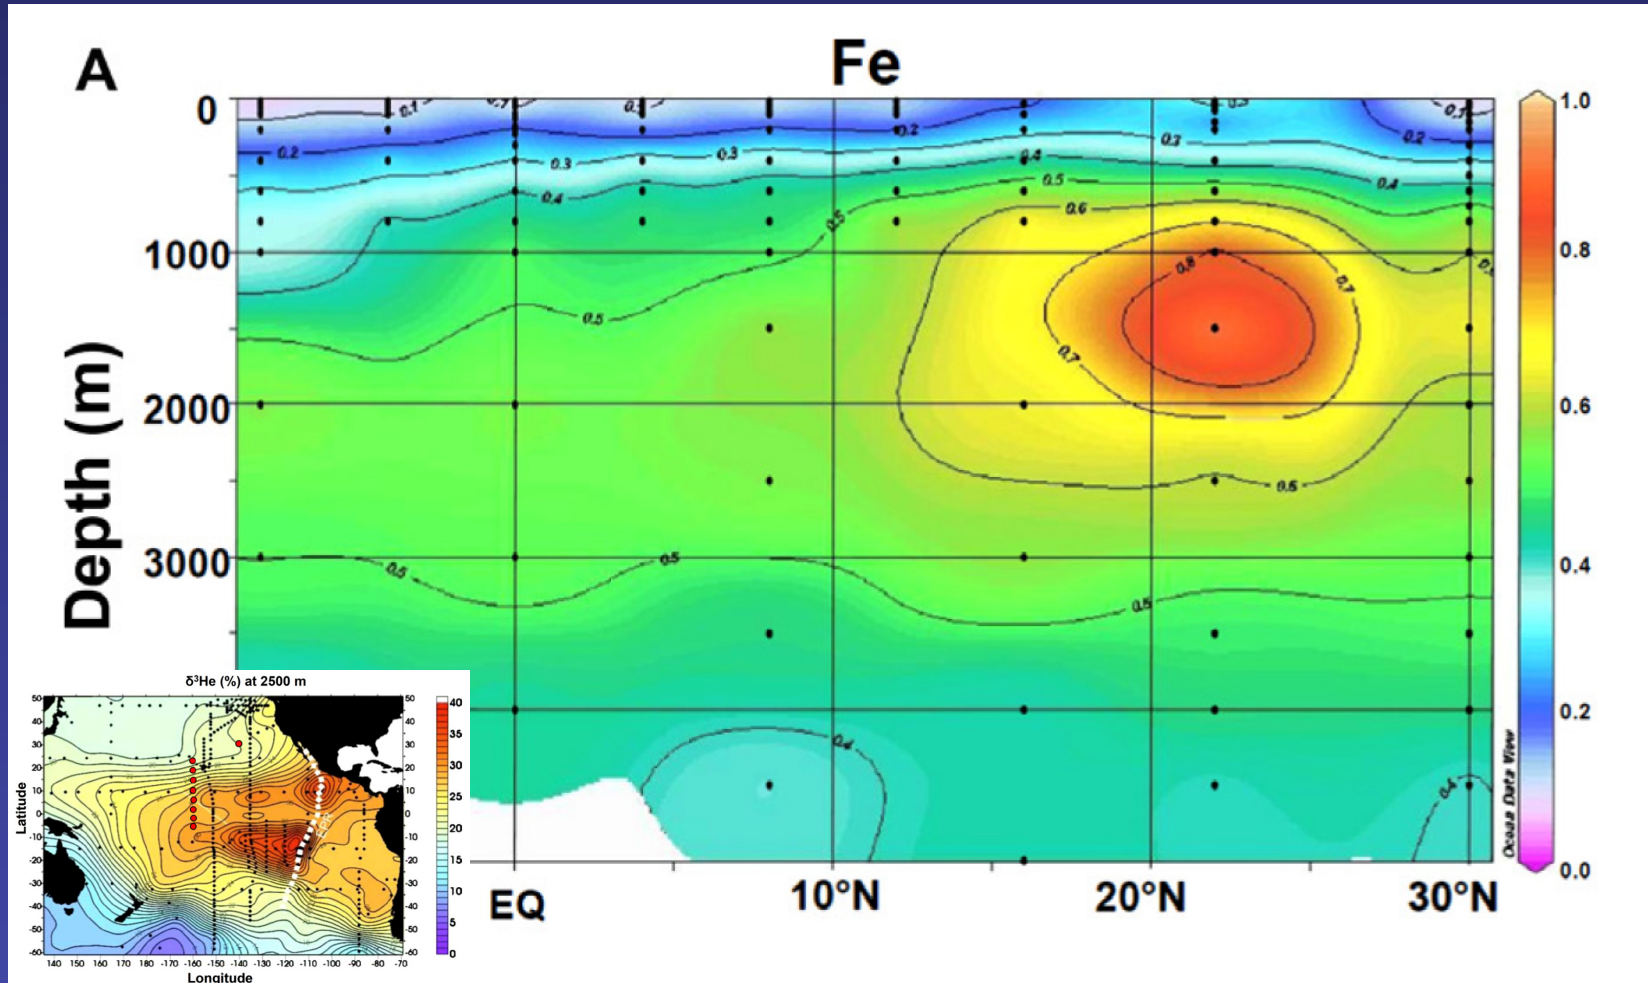

(Yucel et al., *Nat. Geosci.*, 2011)

# How much deep-ocean Fe is hydrothermal?

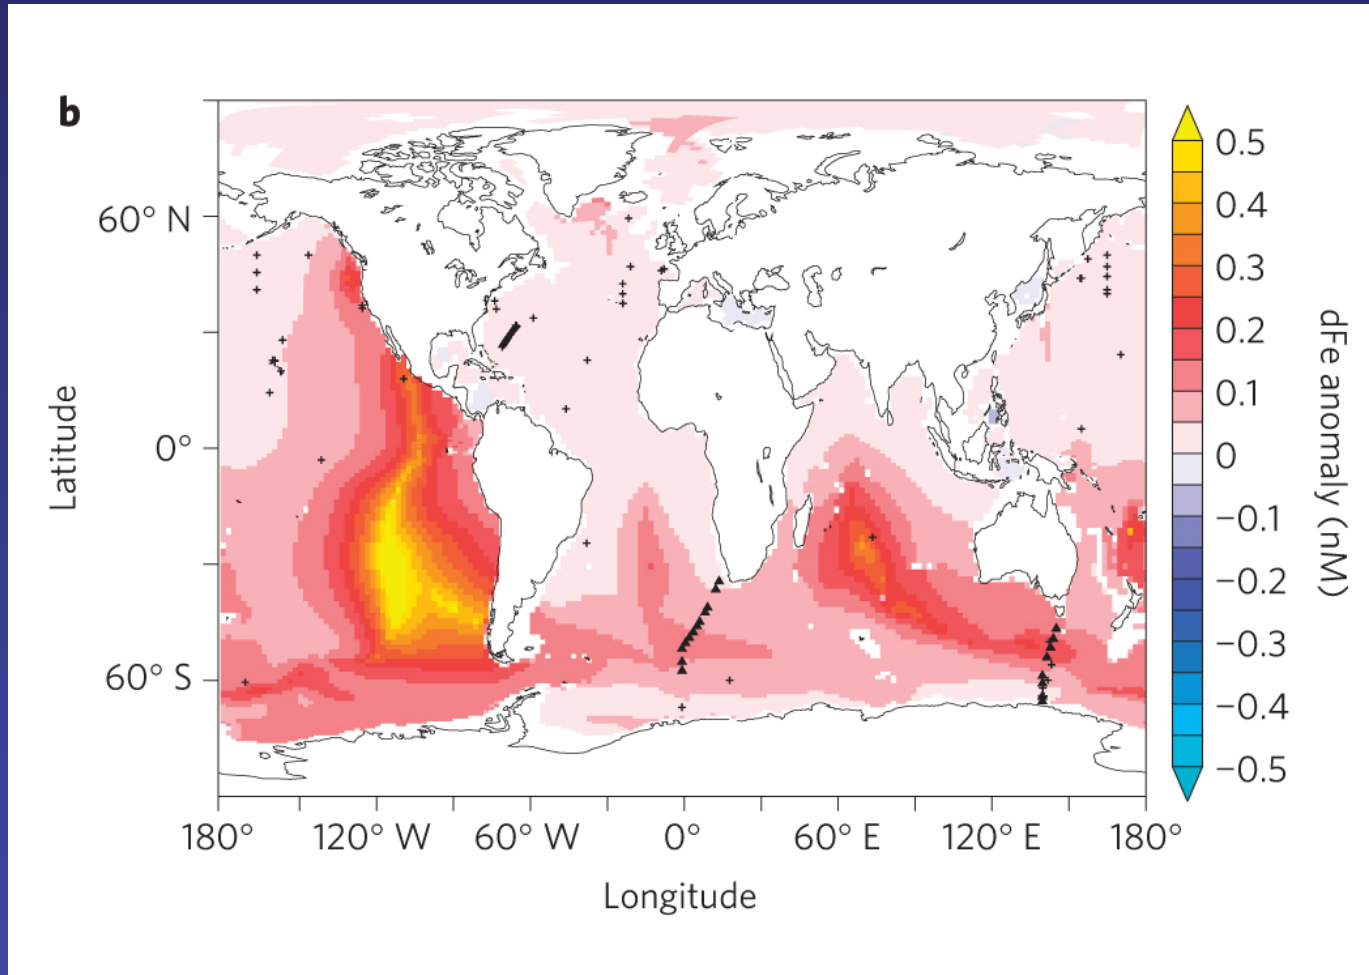

(M.Saito et al., *CoFeMUG Cruise*, 2007)

# How much deep-ocean Fe is hydrothermal?

(Wu et al., *GCA*, 2011)
