FROM: Bob Anderson

Dear Colleagues,

The US GEOTRACES Project Office is currently preparing logistics for the Pacific planning workshop to be held at Scripps (12-14 September). It would be helpful to have a head count of those who wish to attend this workshop.

Although statements of interest are not due until 1 July (see original announcement below and add a reminder to your calendar), please let us know ASAP, and at least by 10 June, if you:

- a) definitely wish to attend, or
- b) may wish to attend but are unsure if you will be able to.

Please send your response to: <geotraces at ldeo.columbia.edu>

Thank you.
